

## Arizona Silver Belt.

The recommendation of Congress to cross troops into Mexico in pursuit of raiders, from the American side of the Rio Grande has caused great excitement in the City of Mexico.

The heft of stealing is committed on Mexican soil by Mesalero, Chiracabua and other U. S. Indians who raid the states of our sister republic and return with stolen stock and publicly sell it to buyers who know it to be stolen. Yankeeedom cannot see this and yet it is as patent as the nose on the sphinx's face. The neighborhood of the Mesalero agency, Lincoln county, New Mexico, is a mart for the sale of horses stolen by Indians from citizens of the states of Chihuahua and Sonora. The fact has more than once been published and notwithstanding, the raiding has not been abated in the least. To us it seems as if our government in its indignation against Mexico has placed itself in the same position as the women who arraigned one of their sex before Christ for having slipped from the path of virtue, and could not consistently pelt her with rocks because they were guilty of the same offense.

The House adopted the amendment increasing the army to 25,000 by a vote of 115 to 106, the Republicans voting solidly in the affirmative. This unanimity is accounted for by the fact that the army stood by Republicanism in the last election, and at its bidding took the cotton and sugar states by the throat. This bill transfers the management of Indian agencies to the army because citizens are not honest. It would seem that congressmen have a just sense of their disposition to steal and measure every other man's morals, who enjoys the elective franchise by their own half-bushel. The bill may stick in the senate because of some one or more objectionable features and consequently may be so amended as to make it objectionable to the House.

The telegrams from Europe in regard to the yet unsettled eastern question are very numerous and especially gotten up to puzzle the most intelligent minds. A person after having worn knit brows and read and re-read them several times will be about as well informed as the boy and his grandmother were after trying to decipher Greeley's letter telling them that turnips would not twine.

William Shewan an old amalgamator, claims to have discovered a process by which ores can be worked without the use of tanks of any kind or slum reservoirs, and will yield a greater percentage of returns than the old methods, while the mills may be worked to their usual capacity. Such a process would reduce the cost of milling by at least one-third, and Mr. Shewan should lose no time in making it known to some competent mining or mill man.—Virginia Chronicle.

Speaker Randall gives it as his opinion that Grant will be the next Republican candidate for President. We presume Babcock will be the Vice on the same ticket. They are twin cherries on a single stem and should not be divided.

What is the difference between the paternal parent of Elizabeth, his satanic majesty and a male species of the musca domestica? Ans: One is the father of Lize, the second is the father of lies, and the other is the father of lies. Horrifying!—Norristown Herald.

What is the cure for gossip? Simply culture. There is a great deal of gossip that has no malignity in it. Good-natured people talk about their neighbors because, and only because they have nothing else to talk about.

A young man of twenty recently took as a wife a Pennsylvania widow of fifty, the sole proprietress of a couple of paying petroleum wells. He loved not wisely but too well.

## \$20 Reward.

Stray—A bay horse about nine years old, fourteen and a half hands high; heavy built, long mane tail and foretop. Has a blaze face, white widening from forehead to nose, hind feet white, not high up. Numerous saddle-marks on sides and back. James Akin, G. L. Turner and P. Tomkins know the animal. I will pay \$20 for the return of the animal to G. L. Turner, McMillenville, or to Ken & Barnes, Globe City.
